THE HEALTH SYSTEM AND MEDICAL JOURNAL
VOLUME 1 NO 2 NOVEMBER 2025

FOCUS AND SCOPE OF THE JOURNAL

Health System and Medical Journal is a peer-reviewed and open access journal dedicated to publishing high-quality research, reviews, and scientific articles in the fields of health systems, medical sciences, and health care management. It serves as a platform for researchers, health care professionals, policy makers, and academics to explore innovations, challenges, and best practices in medical and health systems worldwide.

Articles published in the Health System and Medical Journal include original scientific research results (top priority), new scientific review articles (non-priority), or comments or criticisms of existing writings in the Health System and Medical Journal. The Health System and Medical Journal accepts manuscripts or articles in the fields of management science, business, and entrepreneurship from various academics and researchers both nationally and internationally.

Articles published in the Health System and Medical Journal are articles that have gone through a review process by peer reviewers. The Health System and Medical Journal only accepts articles that originate from original research results (main priority), and new scientific review articles (non-priority). The decision to accept or reject a scientific article in this journal is the right of the Editorial Board based on recommendations from peer reviewers.

JOURNAL INDEXATION INFORMATION

FOREWORD

Health System and Medical Journal is a peer-reviewed and open access journal dedicated to publishing high-quality research, reviews, and scholarly articles in the fields of health systems, medical sciences, and health care management. It serves as a platform for researchers, healthcare professionals, policy makers, and academics to explore innovations, challenges, and best practices in medical and health systems worldwide.

Reviewers assess originality, clarity of presentation, and contribution to the field/science. This journal publishes research articles, review articles/literature reviews, case reports, and concept/policy articles in all fields of health systems science, medical science, and health care management. Articles that will be published are original works and have never been published before. Submitted articles will be reviewed by a team of reviewers from both internal and external sources.

The Editorial Board will continue to strive to improve the quality of the journal so that it can become one of the important references in the development of science. Deepest appreciation and thanks to Mitra Bestari together with members of the Editorial Board and all parties involved in publishing this journal.

Regards,

Chief Editor
